DIXIE ROSE NURSERY

A. F. WATKINS

OWNERS

R. W. FAIR

W. V. HENSON

A block of budded Roses in one of our six nurseries at Tyler, Talisman in the foreground. All our Roses are budded on Multiflora Japonica rootstocks which have been carefully de-eyed to prevent sprouting from the understock.

Why We Offer You the *Finest Field-Grown Roses*

The prices in this Catalog demonstrate more clearly than words that it is possible to have a beautiful Rose-garden at small cost. Cheaper Roses may be bought elsewhere, but plants of Dixie Quality cannot be produced and shipped to you at prices lower than we quote here. All our Roses are field-grown and field-budded on Rosa Multiflora Japonica understock. They have proved to be hardy and free-blooming. We are budding nearly a million Rose plants annually, and our prices are the lowest for which our large and experienced organization can produce finest quality Roses.

The plants which we send out are all two-year-old, Number 1, budded bushes. They are guaranteed to please you.

OUR GUARANTEE

All Roses sold through our retail Catalog are guaranteed, Number 1, two-year plants, true to name and first class in every respect. They are guaranteed to reach you in good condition.

TERMS

READ CAREFULLY. Terms are cash with order, as we have no credit department. Orders of \$2 or more are sent prepaid to points in Texas, Oklahoma, Arkansas, and Louisiana; for other states add 2 cts. per plant for extra packing and transportation charges. On orders of less than \$2 please add 15 cts. in the four states named above, and 20 cts. for other states, regardless of number of plants. No order accepted for less than \$1.15, including packing and postage.

IMPORTANT NOTICE. We exercise care to keep all varieties **true to name**, and hold ourselves in readiness at all times to replace, on proper proof, all that may prove otherwise; but it is mutually agreed between the purchaser and ourselves that we shall not at any time be liable for any amount greater than the original price of stock. All sales made subject to stock being unsold when order is received, or loss by any and all unavoidable causes.

Each year we offer the very best of the newest Roses which come on the market. The descriptions are those given by the introducers, which are, of course, based upon the behavior of the varieties in the particular locality where they were observed. To save disappointment, **please refer to the chart** on the inside of the back cover page, which shows how the different varieties behave in this section, which represents the general South.

PRAISE FOR ONE OF OUR OWN ORIGINATIONS

"The Climbing Talisman, which you originated, is the most beautiful Rose I have ever seen. Flower-lovers will have you to thank for all time to come."—TOM HUSON, (Tom's Toasted Peanuts), Columbus, Ga., May, 1933.

New Patented Novelty Roses

BLAZE (Everblooming Paul's Scarlet). (Jackson and Perkins, 1932.)

Plant Patent No. 10

This marvelous, hardy, everblooming scarlet-red Rose is a seedling of Paul's Scarlet Climber and Gruss an Teplitz, combining the bloom and the habit of Paul's Scarlet with the everblooming character of Teplitz. It is a vigorous, climbing Rose, clothed from top to bottom with excellent foliage, and generally covered with flowers from the earliest blooming season until late autumn. It can be pruned very low to make massing or bedding plants, or it can be trained as a shrub or tied up as a climber or pillar. Its great adaptability in these respects makes it a fine utility Rose, and its brilliant color insures that it will supplant the ordinary Paul's Scarlet. Blaze was awarded the Special Certificate reserved for Climbing Roses at the Bagatelle Contest in Paris, 1933.

All Two-Year, No. 1 Plants, \$2.00 each, 6 or more at \$1.67 each

GOLDEN CLIMBER (Mrs. Arthur Curtiss James)

Plant Patent No. 28

Originated by Mr. and Mrs. Walter D. Brownell, of Rhode Island, who have been working strenuously to improve the size, color, hardiness, and blooming qualities of climbing Roses, this magnificent new golden yellow climber has met with sensational approval wherever it has been grown or shown. It is virtually a yellow Mary Wallace, although the foliage is glossier and healthier, and the long-stemmed yellow flowers are borne singly instead of in clusters.

Blooms of tremendous size with glorious, long-pointed buds were exhibited at the Rose Show of the Massachusetts Horticultural Society and won the acclaim of the members of the American Rose Society assembled in Boston at that time.

Undoubtedly this splendid new Rose is the finest hardy yellow climbing Rose introduced to date, and will give great pleasure to a tremendous number of enthusiastic Rose-growers as it becomes known to them.

All Two-Year, No. 1 Plants, \$2.00 each,
6 or more at \$1.67 each

All Roses Sold Through Our Retail Catalog Are Two-Year, No. 1 Rose Plants

New Everblooming Roses—Hybrid Teas

PRESIDENT HERBERT HOOVER

(L. B. Coddington, 1930)

Cross of Sensation × Souv. de Claudius Pernet. Large, cerise-pink, flame, scarlet, and yellow bloom; thick, broad petals; fragrant. This variety has proved itself through several years' test as one of the best of the newer garden Roses for the South, for it grows with exceptional vigor and produces an unbroken succession of handsome flowers. 50 cts. each, \$5.00 per doz.

"The Roses arrived in fine condition. We have dealt with some of the most widely advertised Rose-growers and your plants, so far, compare more than favorably with theirs at double your prices. Thank you for filling our order so carefully."—John Gartner, Baldwin, N. Y.

MRS. PIERRE S. DU PONT

(C. Mallerin, 1929)

Here is a splendid new golden yellow Rose which promises to be the finest of its color for garden use. The well-shaped golden yellow flowers resemble those of the lovely old Mme. Butterfly in form. The plant is compact and leafy, growing about 2½ feet high, and blooms with unceasing abundance throughout the entire season. We regard it very highly. 50 cts. each, \$5.00 per doz.

Mrs. Pierre
S. du Pont

MARY HART (New)

(Red Talisman) Plant Patent No. 8

Illustrated on front cover

(G. B. Hart, 1932)

A stunning, glorious red sport of the well-known Talisman which it resembles in almost all respects except color, having the same erect habit, with foliage of somewhat darker green. It is an unceasing bloomer, producing warm brownish crimson flowers both early and late, with the unusual

merit for a red Rose that the color does not turn bluish as the blooms fade. \$1.50 each, 6 or more at \$1.25 each.

New Everblooming Roses—Hybrid Teas

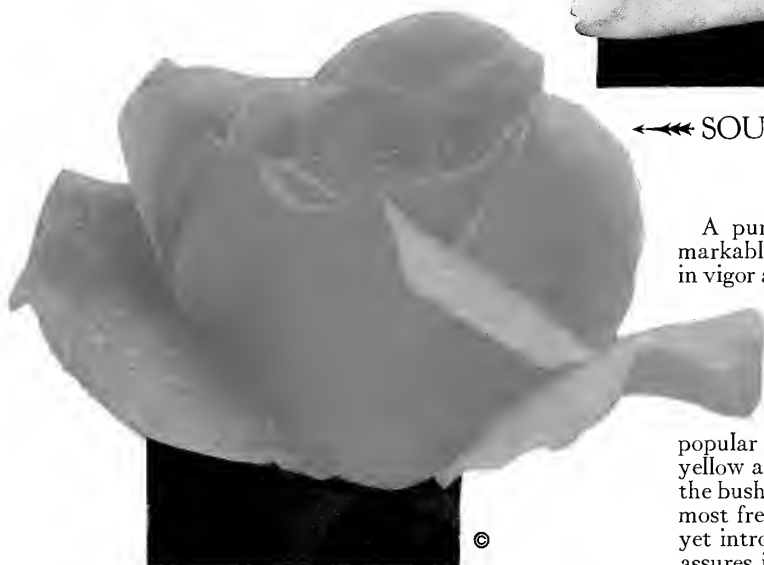

EDITH NELLIE PERKINS

(A. Dickson & Sons, 1928)

The open bloom is a delightfully shaped flower of two contrasting tints, the outside of the petals gleaming with bright orange-cerise and the inside overspread with pale salmon-pink flushed with orange-gold. The buds are firm and handsome, richly dyed with copper tones before they open. The plant stands up vigorously and keeps itself well clothed with glossy, disease-resistant foliage. We have found this variety more than ordinarily vigorous, so that it makes a splendid bush, lending itself to formal bedding use, as well as providing an abundance of exquisite blooms for cut-flowers.

All Two-year, No. 1 Plants, 50 cts. each, \$5.00 per doz.

All plants sold through our retail Catalog are Two-year, No. 1 Roses

←←← SOUVENIR (Golden Talisman)

(A. N. Pierson, 1932)

Plant Patent No. 25

A pure golden yellow sport of the remarkable Rose, Talisman, which it equals in vigor and resembles in its upright growth, healthy light green foliage, and freedom in blooming. Its flowers are slightly larger than those of Talisman and a little more loosely built, thus correcting one of the minor faults of that popular variety. The blooms are fadeless yellow and last for a long time, either on the bush or when cut. It promises to be the most free-flowering, non-fading yellow Rose yet introduced and its Talisman parentage assures its vigor and excellent behavior in

the garden. We are almost certain that it will take its place as a permanent garden resident. \$1.00 each, 6 or more at 84 cts. each.

A New Novelty COUNTESS VANDAL. (Leenders, 1932)

Everblooming. Illustrated on back cover. Plant Patent No. 38

At all the Rose shows in Europe during the season of 1931 this Rose took first prizes, medals, and awards of commendation, making a veritable sensation in the Rose-world. Its long, pointed buds are coppery salmon and golden yellow, opening to large, bronzy pink flowers frequently

more than 5 inches across, its long, deep petals reflexing in a graceful manner so that it has an exquisite delicacy of form unapproached by other varieties of similar size. Upright and vigorous; bronzy foliage and prolific flowering habit. \$1.50 each, 6 or more at \$1.25 each.

Patented Roses do not take quantity prices

E. G. Hill

E. G. HILL

HT. (E. G. Hill Co., 1929)

Very beautiful dark red buds which open to immense, long-lasting, dazzling scarlet flowers, with the rich fragrance of the old-time Roses. The blooms are full to the center, compact of many petals, and last a long time on the bush or cut. For a Rose so full, the plant is unusually prolific and makes better than average garden growth. The leader of all reds in our nursery in 1933 for a consistent showing of color and fine flowers. 50 cts. each, \$5.00 per doz.

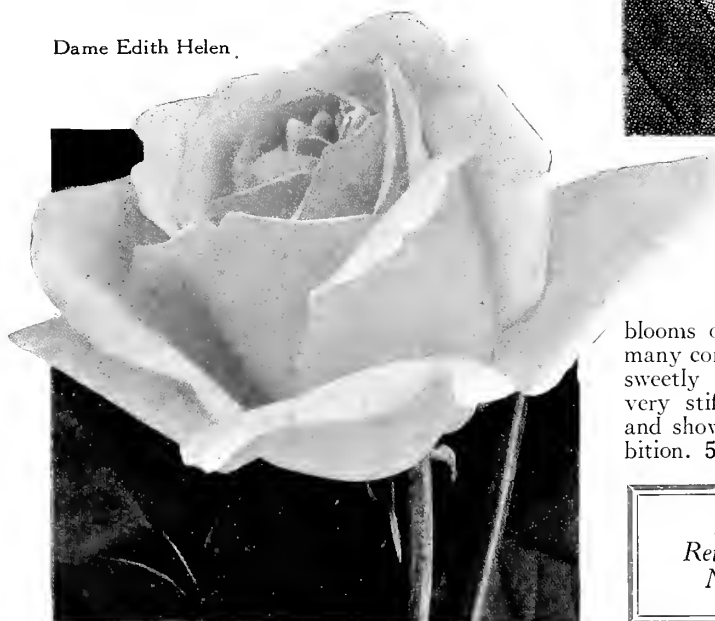

Mevrouw G. A. van Rossem

**MEVROUW G. A. VAN ROSSEM**

HT. (G. A. van Rossem, 1926)

This is a stunning bright yellow and orange Rose, of erect habit, with rather small foliage and thick, thorny canes. While of only medium size, the gorgeous globular blooms are golden yellow, flamed with orange and scarlet, showing exquisite, clean-cut veins of deeper tones, deepening at times even to bronze and brown. A most unusual and striking bloom of the highest quality. The best grower of its color class for southern gardens but fades badly in hot weather. 50 cts. each, \$5.00 per doz.

Dame Edith Helen

**DAME EDITH HELEN**

HT. (A. Dickson & Sons, 1926)

A superb Rose of the exhibition type, producing huge, shapely buds and very large, high-centered blooms of clear dazzling pink, composed of many concentric petals full to the center and sweetly fragrant. The stems are erect and very stiff. It is probably the handsomest and showiest fully double pink Rose for exhibition. 50 cts. each, \$5.00 per doz.

*All Roses sold through our
Retail Catalog are Two-Year
No. 1, First-Quality Plants*

LORD CHARLEMONT

HT. (S. McGredy & Son, 1922)

This magnificent Hybrid Tea has steadily won its way into popularity year after year, because of its brilliant color and delicious fragrance. The blooms are somewhat globular, full petaled, and symmetrically shaped. They are held upright on strong, wiry stems, and their vivid scarlet-crimson color stands out above all other reds.

We have found it a notably good garden Rose, growing with better than average vigor and not so thorny as most. The foliage is deep green, leathery, and highly resistant to black-spot. As a cut-flower it is unsurpassed, the blooms having extraordinary lasting qualities, enduring without fading for several days. 60 cts. each, \$6.00 per doz.

**GOLDEN DAWN**

HT. (Patrick Grant, 1929)

A lovely Rose originated in Australia, which experienced rosarians unite in pronouncing the finest light yellow garden Rose grown in this country. The flowers are fully double, deep yellow in bud, occasionally tinged with bronze and opening to fine, richly fragrant, pale lemon-yellow flowers of great size and lasting quality. The plants are dwarf and spreading, with dark, glossy green foliage which seems impervious to the attacks of black-spot. It is most extraordinary for a yellow Rose to combine such qualities and we believe that Golden Dawn has a great future before it. 60 cts. each, \$6.00 per doz.

MARGARET MCGREDY

HT. (S. McGredy & Son, 1927)

It is almost impossible to describe the extraordinary vividness of this scarlet-orange or brick-red flower. The color stands out in the garden like a torch. The symmetrical blooms are cup-shaped and double, with an excellent circular arrangement of the petals, and they are produced with astonishing freedom throughout the entire season. This wonderful Rose never fails to draw favorable comment from visitors who see it growing in our nursery. Its sturdy growth, delightful perfume, and remarkable blend of colors is everything that could be desired. We recommend it especially for mass planting. 50 cts. each, \$5.00 per doz.

"The plants are beautiful."—Mrs. Grace P. Craig, Lyford, Texas, November 30, 1932.

TALISMAN

Everblooming HT.
(Montgomery Co., 1929)

Brilliant red and golden buds that open to beautifully shaped blooms of scarlet-orange and golden yellow. Vigorous; tall; blooms constantly. Thrives almost everywhere. In order to meet the unusual demand we produce great fields of this Rose. The 1933 American Rose Annual places Talisman in the No. 1 list of Roses—that is, varieties that have received the most widespread praise with the least criticism, from those who have thoroughly tested this wonderful Rose. 50 cts. each, \$5.00 per doz.

See CLIMBING TALISMAN on page 20.

This wonderful new climber was originated and tested by Dixie Rose Nursery

"In 1932 I bought from you a Climbing Talisman. I believe I was the first to have one in this vicinity. It has surprisingly surpassed all my expectations. It not only bloomed the first year, but it grew a cane 14 feet long, which embraces an arch, and this spring it bloomed abundantly. All who visited my garden had high praise for it."—I. Naumoff, Hollywood, Calif.

MRS. ERSKINE PEMBROKE THOM

HT.

(Howard & Smith, 1926)

This is probably the best all-round clear medium yellow garden Rose. It has slender, shapely, golden yellow buds, and large, symmetrical blooms of light canary-yellow, a trifle deeper in the center. The plants are erect and very vigorous, blooming freely through several marked flowering periods. 50 cts. each, \$5.00 per doz.

We are developing a strong climbing sport of this wonderful yellow Rose. Plants of this new climber will be ready for distribution in the season of 1934 and 1935.

All Rose plants

"The Roses are really the loveliest I've ever had from anywhere, without exception. So many fine roots, so alive, and almost ready to pop out."—Mrs. Robert Owen Horton, Lynchburg, Va.

MME. NICOLAS AUSSEL

HT.

(Pernet-Ducher, 1930.)

This stunning new Rose won a Gold Medal at the Exposition of Lyons in 1930. It is a remarkable blend of deep glowing orange and salmon-pink, fragrant, beautifully formed, and lasting when cut. The bud is very large and shapely, heavily tinged with salmon and carmine, while the open flower is glowing salmon suffused with gold and orange. The plant is vigorous and produces a fine crop of flowers several times during the season. It is regarded by experienced growers as one of the best recent Roses. 60 cts. each, \$6.00 per doz.

NEW DAWN (Everblooming Dr. W. Van Fleet). HW. (Somerset Rose Nursery, 1930.) Plant Patent No. 1

Most popular of all hardy climbing Roses, the lovely flesh-pink Dr. W. Van Fleet has finally produced an everblooming sport which marks the dawning of a true everblooming climbing Rose hardy enough to withstand severe frost. The flow-

ers have the same exquisite shell-pink tint and while the plants are not so vigorous as the original, they are sufficiently strong to make splendid, glossy-leaved pillars. A new type of Rose of unusual merit. \$1.50 each, 6 or more at \$1.25 each.

AUTUMN. HT. (L. B. Coddington, 1931.)

This gorgeous dark crimson and yellow flower is a descendant of Sensation and Souv. de Claudius Pernet. The buds have a burnt-orange tinge and open to very double flowers of deep pink and orange-yellow. During very warm weather the flowers have a curious striated or striped appearance which disappears in cooler seasons, leaving a deep bloom of crimson and gold. The plant is extremely vigorous. 75 cts. each, 6 or more at 60 cts. each.

OLYMPIAD (Mme. Raymond Gaujard). HT. (Jules Gaujard, 1931.)

This handsome French variety won the 1930 Gold Medal at Bagatelle. It has a very long bud and a fully double, extremely long-lasting flower of deep blood-red shaded with copper and yellow. Plants vigorous and free-flowering. This Rose has been a sensation on the west coast and is expected to achieve great popularity throughout the country. 75 cts. each, 6 or more at 60 cts. each.

The Arlington Municipal Rose-Garden Won a \$1000 Prize in 1932

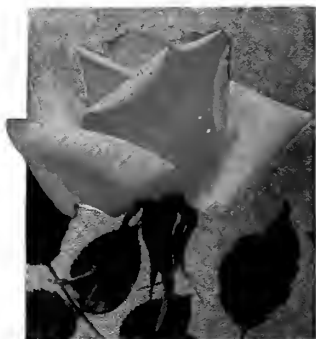

"The Arlington Municipal Rose-Garden is indebted to Dixie Rose Nursery for many fine Roses and valuable advice given by Mr. A. F. Watkins. You are indeed fortunate in having such a man at the head of your Rose Nursery. We are fortunate in having access to such wonderful nurseries and the valuable information gained by visiting your Rose fields, where thousands of Roses of each variety can be seen, and principally new varieties. I have never seen a more wonderful sight. It is well worth anyone's time to visit your Rose fields."—Mrs. J. C. COBB, Chairman, Arlington, Texas.

We Grow Principally Hybrid Teas or Everblooming Roses

Hybrid Tea Roses (indicated by HT.) do not bloom all the time, but if kept healthy and growing, they bloom successively throughout the growing season. Our plants are adapted to all sections, with winter protection where necessary.

Special or Newer Everblooming Roses

All Roses below are 50 cts. each, \$5.00 per doz., unless priced otherwise

BETTY UPRICHARD

A. Dickson & Sons, 1922

HT. Copper-red buds, opening to semi-double, large flowers of brilliant orange-carmine on outside of petals, showing light salmon reflexes; spicy fragrance.

ABOL

Frederick Evans, 1927

HT. Large, globular, white buds tinged with pale blush-pink; flower full, very fragrant, ivory-white with flush tints on center petals.

BRIARCLIFF

Briarcliff Greenhouses, 1926

HT. A brilliantly colored sport of the famous Columbia, with huge, rich pink flowers on long, strong stems. The plant is equally floriferous.

CUBA

Pernet-Ducher, 1926

HT. Vivid orange-scarlet buds, opening to immense, cup-like flowers of iridescent copper-red and brilliant orange-vermilion. Free-flowering and exceptionally vigorous.

CALEDONIA

Dobbie & Co., 1928

HT. Extremely long, delicate, pure white buds, opening to double, high-centered blooms of creamy texture. A superb, snowy white Rose when fully developed. 60 cts. each, \$6.00 per doz.

ETOILE DE HOLLANDE

H. A. Verschuren & Sons, 1919

HT. Brilliant red blooms of magnificent size, perfect in half-open state; attractive centers when full blown; enormous petals; fragrant. Healthy. Free-flowering.

SPECIAL OFFER C. Any 25 Special 50-ct. Roses, \$10.25 PREPAID in the United States.

COMBINATION OFFER D. Any 25 Special Roses and any 25 Standard 35-ct. Roses (a total of 50 Roses), for \$15.50 PREPAID anywhere in the United States

Special or Newer Everblooming Roses, continued

All Roses below are 50 cts. each, \$5.00 per doz., unless priced otherwise

ALEXANDER HILL GRAY

A. Dickson & Sons, 1911

T. A handsome Tea Rose of especially free-flowering and vigorous habit. The huge, deep-petaled flowers are white and gold and nod gracefully from strong, branching stems.

Charles P. Kilham

CHARLES P. KILHAM

G. Beckwith & Son, 1926

HT. Huge, double flowers of brilliant oriental red suffused with gay orange and scarlet. A greatly improved Mme. Edouard Herriot both in substance of flower and in vigor.

John Russell

JOHN RUSSELL

Dobbie & Co., 1924

HT. Large, ovoid buds and immense, crimson flowers of old-time globular type, with the famous high exhibition centers. Very vigorous. 35 petals. A red Rose you will enjoy.

DAINTY BESS

W. E. B. Archer & Daughter, 1928

HT. The charming single flowers in large clusters are soft mauve-pink, with petals of kid-like texture, emphasized by a sparkling garnet-crimson center. A tall-growing plant.

Angelus

ANGELUS

F. H. Lemon & Co., 1921

HT. A strong, upright-growing bush with huge, pure white flowers somewhat similar to those of Kaiserin Auguste Viktoria, but doubler and richly fragrant.

Joanna Hill

JOANNA HILL

J. H. Hill Co., 1928

HT. Bright yellow and cream-colored flowers, like improved Sunbursts. Stems long and stiff, making the blooms excellent for cutting. A steady, continuous bloomer.

DOROTHY PAGE-ROBERTS

A. Dickson & Sons, 1907

HT. Large, semi-double flowers of rich, glowing pink with a fascinating coppery sheen. Abundant bloom; vigorous. An old variety no longer generally grown but excellent here.

Lucie Marie

LUCIE MARIE

A. Dickson & Sons, 1930

HT. Long, deep yellow buds, splashed with red, and full, cup-shaped, fragrant flowers of tawny yellow and apricot. Very vigorous and free-flowering. 60 cts. each, \$6.00 per doz.

Mrs. Henry Bowles

MRS. HENRY BOWLES

Chaplin Bros., 1921

HT. Ovoid buds and globular flowers of clear, piercing pink, with lighter shades. A fine firm center, well held, and fairly fragrant. Vigorous; free-blooming plants with good foliage.

"All our members were delighted with your Roses. It must be gratifying to deliver Roses of such high quality, and which please all who order them."—Mrs. John M. Boyd, Marianna Scruggs Garden Club, Dallas, Texas.

Any of the following Roses, 50 cts. each, \$5.00 per doz., unless priced otherwise

EDEL

S. McGredy & Son, 1919

HT. Huge, very double, snow-white flowers with many exquisitely curled petals. Plants are vigorous and free-flowering.

HAWLMARK CRIMSON

A. Dickson & Sons, 1920

HT. Almost single flowers, dark, velvety, blackish crimson. Plants tall, free-flowering, and splendid for garden decoration.

HOLLYWOOD

Peter Scittine, 1930

HT. Dark rose-red flowers resembling in form the famous Premier Rose of the flower-shops. The bud is firm, pointed, and opens to an exquisitely shaped, high-centered, fragrant flower of appealing charm.

IMPERIAL POTENTATE

Clarke Bros., 1923

HT. Firm-petaled blooms of dark, shining rose-pink, shaded lighter on reverse of petals; fragrant. Erect branching plant. Good foliage. Healthy, hardy.

INNOCENCE

Chaplin Bros., 1921

HT. Huge, single, white flowers with immense centers of golden yellow anthers and red filaments. A very chaste and lovely bloom.

IRISH CHARM

S. McGredy & Son, 1927

HT. Medium-sized, double flowers of bright golden apricot passing to blush-pink. Fragrant and very lovely.

IRISH ELEGANCE

A. Dickson & Sons, 1905

HT. Large, single flowers of orange-scarlet, tinged with bronze and apricot. A very decorative single-cluster flower.

J. C. THORNTON

Bees Ltd., 1926

HT. A glowing crimson flower, medium size, double, and deliciously fragrant. An excellent new red Rose. 60 cts. each, \$6.00 per doz.

JULIEN POTIN

Pernet-Ducher, 1927

HT. A fine clear yellow Rose of vigorous, erect habit, with very shapely flowers of good yellow.

Dixie Roses Thrive in New England, Too

"Last fall I received twelve of your Rose plants which I received and planted on December 15, with only the usual protection. I expected some loss, as I did not think Texas-grown stock would be ripened enough to withstand our cold winters. Much to my surprise, they came through 100 per cent, and have made unusual growth this summer and have bloomed very well."—Sumner C. Burgess, Falmouth, Mass.

Early Winter Planting Is Advisable in the South

Late fall is the best planting-time in the South because growth ceases for only a few weeks in midwinter. Bushes planted before winter comes make good root-growth and are ready to begin growing vigorously when spring opens. In the southern states, Roses may be planted at any time in winter when the ground is not frozen, but particularly from November 15 to February 15. If possible, prepare the ground several weeks in advance before planting.

Instructions for Planting and Care of Dixie Roses Furnished with Each Order

Standard Offer No. 2 — 15 Standard Roses

Everblooming varieties that have proved healthy and free-blooming.

KONIGIN LUISE

C. Weigand, 1927

HT. Very rich, double, high-centered, snow-white flowers, deliciously fragrant, freely produced by vigorous plants. 60 cts. each, \$6.00 per doz.

LADY MARGARET STEWART

A. Dickson & Sons, 1926

HT. Large exhibition bloom with enormous petals, perfect form, high-pointed center, golden yellow, shaded and streaked with orange and red. Extra-handsome, healthy foliage. 54 petals.

MISS LOLITA ARMOUR

Howard & Smith, 1919

HT. Extremely double, deliciously scented, coppery orange and pink flower of striking appearance. Bush is strong.

MAMAN COCHET

S. Cochet, 1893

T. Huge, long-pointed flowers, double to the center and deliciously fragrant, pale pink throughout. One of the best old Tea Roses, especially adapted to southern gardens.

MME. EDOUARD HERRIOT

Pernet-Ducher, 1913

HT. One of the most famous Roses in the world. Gorgeous coral-red and orange tinged with yellow and gold. Free-flowering and exceedingly brilliant in the garden.

MRS. HERBERT HOOVER

L. B. Coddington, 1930

HT. Long, slender, bright crimson buds; deep, long-petaled, light crimson, very fragrant flowers on long stems. Erect and vigorous.

MISS ROWENA THOM

Howard & Smith, 1928

HT. Enormous buds and blooms of fiery rose and mauve, shaded with old-gold at center, borne on long, strong stems. Profuse, continuous bloomer. Very prolific.

MRS. W. C. MILLER

S. McGredy & Son, 1909

HT. Enormous, double flowers of erect peony shape, brilliant pink shaded with silver and rose.

McGREDDY'S SCARLET

S. McGredy & Son, 1930

HT. Huge, loosely formed flower of bright crimson shaded with dazzling orange-scarlet. Extremely fine.

Special Group Prices to Garden Clubs

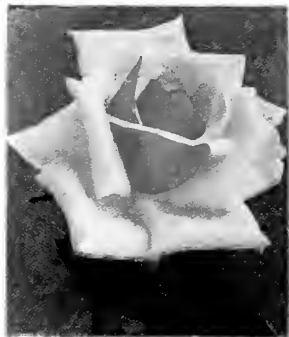

Because it is easier to handle large orders than small ones, we can afford to make special reductions in prices to Garden Clubs whose members group their orders, or to any number of Rose-lovers who group together for the purpose of securing favorable prices on Roses. If one hundred or more Roses are ordered to be shipped at one time, you are entitled to the 100-lot prices quoted at bottom of page 15.

Dixie Rose Nursery is a member of the American Rose Society. Because it endorses the work of that organization, it will give one annual membership in the American Rose Society to every Rose group which orders 100 or more Dixie Rose bushes this season, to be shipped at one time. Membership in the American Rose Society is an honor and a privilege. Among other advantages, each member receives a practical book on Rose-growing called "What Every Rose-grower Should Know."

A Rose-Garden Increases the Value and Salability of Any Home

Special or Newer Everblooming Roses, continued

All Roses on this page, 50 cts. each, \$5.00 per doz., unless priced otherwise

Mrs. A. R. Barraclough

MRS. A. R. BARRACLOUGH

S. McGredy & Son, 1926

HT. Huge, pointed buds and extremely double, high-centered flowers of glowing light salmon-pink.

NATIONAL EMBLEM

S. McGredy & Son, 1915

HT. Dark crimson flowers, with a velvety texture, shaded with vermilion toward the edges of the petals. A lovely specimen flower.

NORMAN LAMBERT

S. McGredy & Son, 1926

HT. Large, handsome, copper-orange buds and very large, semi-double flowers, rich golden yellow at first, splashed and edged with coppery crimson. Tall, healthy, free-flowering.

NUNTIVS PACELLI

Leenders Bros., 1927

HT. A beautiful, pure white Rose, more vigorous and larger than the old Kaiserin Auguste Viktoria. Fragrant, and unstained by other tints.

Roslyn

ROSLYN

Edward Towill, 1929

HT. Charming, pointed buds of golden yellow and frilled, open flowers of buttercup hue strengthened with orange. A remarkably free bloomer.

PADRE

B. R. Cant & Sons, 1921

HT. Large, semi-double flowers of blazing orange-scarlet, flushed with yellow. Tall, wiry plants, in bloom all the time.

ROSE HILL

J. H. Hill Co., 1928

HT. This is a handsome Rose of the Columbia type, with very large, double, pink blooms having full, high-pointed centers, borne singly on long stems. A choice Rose for cutting.

SUNKIST

E. G. Hill Co., 1932

HT. A sport of the charming Joanna Hill, with flowers of deep cream and orange-copper tones. Fine for cutting. 60 cts. each, \$6.00 per doz.

Rev. F. Page-Roberts

REV. F. PAGE-ROBERTS

HT. Copper-red buds of great length, opening to very large, fully double, golden yellow blooms, stained outside with red; fragrant. 50 petals. A strong, branching plant with healthy foliage.

SYRACUSE

C. Mallerin, 1930

HT. Bright crimson flowers full of petals, borne singly on good stems by vigorous, bushy plants. 60 cts. each, \$6.00 per doz.

TEMLAR

Montgomery Co., 1924

HT. A popular, well-known deep scarlet-crimson flower of good globular form and luscious fragrance.

WILHELM KORDES

W. Kordes Söhne, 1922

HT. Long, pointed buds and double, high-centered flowers of deep golden salmon, overspread with a tint of copper and veined with red; fragrant. Unusually free-blooming. Vigorous, compact growth. 50 petals.

The "Key to Classification" on page 23 gives the growing strength of each variety. If your growing conditions are not good it will be best for you to order only strong-growing varieties. Special quantity prices will be found on page 15. Our prices are lower than those of other Rose-growers of established reputation, because our large production, our methods and climatic conditions reduce our production costs. Remember, all prices shown in this Catalog are **PREPAID TO YOU**, except as noted under "TERMS" on page 2.

"Such Roses! And how surprised I was to find I had won First and Second Prizes on my exhibit at the Annual Jacksonville Garden-Circle Flower Show. I set 24 of your Radiance Roses in February this year. They grew so well and so quickly, blooming with such profusion, that I was tempted to enter them in the show—my first entry and first interest in competition of this kind."—S. R. NORRIS, M.D., Jacksonville, Fla., November, 1933.

Special or Newer Everblooming Roses, continued

The two special Roses below are 50 cts. each, \$5.00 per doz.

Rapture

RAPTURE

Traendly & Schenck, 1926

HT. Much like Mme. Butterfly in growth and shape of bloom, but the color is deeper and more brilliant. Considered the best of the many fine varieties of the Ophelia race.

MRS. LOVELL SWISHER

Howard & Smith, 1926

HT. Large, pointed buds and huge, gorgeous flowers of salmon-pink and gold, passing to flesh-pink at edges. Strong grower and free bloomer. One of the largest Roses.

Mrs. Lovell Swisher

Standard or Well-Known Hybrid Perpetuals

35 cts. each, \$3.50 per dozen. These Roses bloom in late spring and in the autumn

FRAU KARL DRUSCHKI

P. Lambert, 1901

HP. White American Beauty. Pinkish buds and magnificent, snow-white blooms with deep, firm petals. A flower of unsurpassed shape. Best white Rose of any class. Very strong; 4 to 6 feet high. Prune often. Foliage normal. Blooms freely and continuously throughout the summer and fall.

GENERAL JACQUEMINOT

Roussel, 1852

HP. Scarlet-crimson buds and clear red blooms of moderate size and excellent shape; very fragrant. Plant strong; 3 to 6 feet high. Normal foliage. Often blooms a second time. An old favorite.

MME. ALBERT BARBIER

Barbier & Co., 1925

HP. Full, cupped flowers of soft fawn-yellow, paling to white; pinkish shades in the center. Growth moderate; blooms steadily through the season. Remarkable combination of yellow shades.

PAUL NEYRON

A. Levet, 1869

HP. Dark lilac-rose blooms of immense size, fair form, very double; remarkably fragrant. Vigorous. Strong, smooth canes. Tough, leathery foliage. It is a very free, constant bloomer and one of the largest of all Roses.

Roses are in demand because the unusual weather of the past eighteen months killed millions of plants. Order your Roses now

OFFER E. Any 25 of the 35-ct. Roses for \$7.00 PREPAID anywhere in the United States.

Standard or Well-known Everblooming Roses

All Roses listed below are 35 cts. each, \$3.50 per doz.

There are thousands of standard or well-known Roses. However, we are now offering you only the bush and climbing varieties which we consider are worthy and adaptable to most soils and conditions.

AMERICAN BEAUTY

Lédéchaux, 1886

HP. Large, globular buds and deep vinous crimson flowers, intensely fragrant, borne freely at frequent intervals on strong stems over a long season. A very popular variety which always wins great admiration for its delicious perfume.

ANTOINE RIVOIRE

Pernet-Ducher, 1896

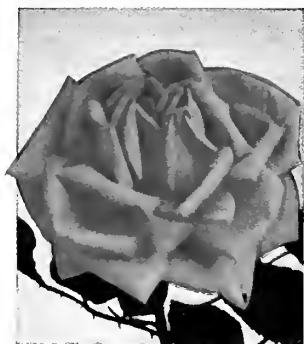

HT. Flower pale silvery pink, often shaded lilac, with a touch of yellow at base; opens flat; double to center; medium size; fragrant. Erect, moderate growth. Foliage small, dark. Free-blooming spring and fall. Beautiful bud and flower. 70 petals.

CHARLES K. DOUGLAS

H. Dickson, 1919

HT. Fine, long-pointed buds, opening to large, loosely formed flowers of striking crimson-scarlet; slightly fragrant. The strong, branching plants are of ideal bedding habit and make a striking garden picture. Abundant, healthy foliage.

COLUMBIA

E. G. Hill Co., 1916

HT. Lively, bright pink, sweetly scented flowers of exquisite shape and strong, stiff petals, deepening in color as they expand. Free-flowering; good growth. Healthy foliage. 60 petals.

FRANK W. DUNLOP

J. H. Dunlop, 1919

HT. Very large buds and flowers of deep, brilliant rose-pink, extremely double and highly perfumed. Tall, with sparse foliage; blooms freely. 62 petals.

ETOILE DE FRANCE

Pernet-Ducher, 1904

HT. One of the really fine old-fashioned, clear crimson Hybrid Teas, with large, double, star-shaped flowers borne singly on long stems. A good, bushy, bedding variety.

GRUSS AN TEPLITZ

Geschwind, 1897

A China or Bengal Rose in character. Clusters of medium-sized, brilliant crimson flowers, with velvety shadings and intense fragrance. Excellent for massing or edging. Blooms freely throughout the season. Vigorous and hardy.

LADY ASHTOWN

A. Dickson & Sons, 1904

HT. Satiny buds and double, high-centered blooms of deep shining pink, with yellow glow at base of petals; quite fragrant. Strong; free-blooming. Hardy; healthy. 50 petals.

JONKHEER J. L. MOCK

M. Lecnders & Co., 1910

HT. Carmine buds of gigantic size, opening slowly to enormous deep carmine-pink blooms with inner surface silvery rose. The stems are strong and the bush is vigorous and usually healthy. 75 petals.

Standard or Well-known Everblooming Roses, continued

All Roses listed below are 35 cts. each, \$3.50 per doz.

FRANCIS SCOTT KEY

J. Cook, 1913

HT. Very large, light crimson buds and massive, very double (95 petals) blooms of noblest form; slightly fragrant. Erect. Flowers in great abundance. Good foliage. Quite hardy. Does extra well in the South.

**KAISERIN AUGUSTE
VIKTORIA**

P. Lambert, 1891

HT. Well-formed, creamy buds which develop slowly to snowy white blooms of perfect form, with lemon tint at center; fragrant. Moderately vigorous. Hardy. 98 petals.

HADLEY

Montgomery Co., Inc., 1914

HT. A rich crimson-red flower with velvety texture, lovely form, and perfume unsurpassed in cut-flower value. Moderate in bloom and growth. The flowers show their best color in the fall.

LADY HILLINGDON

Lowe & Shawyer, 1910

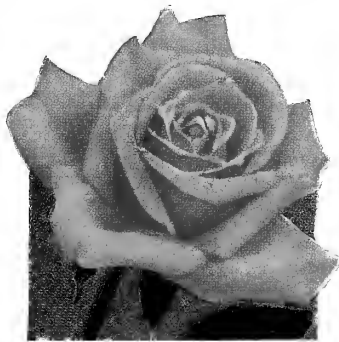

T. Slender, pointed buds and elegantly cupped flowers of deep saffron-yellow, paling lighter toward edges of petals; fragrant. Erect. Perfect foliage. Requires some shade in hot weather. Free-flowering.

**MARY, COUNTESS OF
ILCHESTER**

A. Dickson & Sons, 1909

HT. Large, double, full, cupped blooms of deep rose-pink; fragrant. Plant bushy; blooms freely. Very hardy. 52 petals.

LUXEMBOURG

(Marie Adelaide, Grande Duchesse de Luxembourg)

Souper & Notting, 1912

HT. Yellow, shading to copper at center. Stiff, upright stems, producing large flowers especially valuable for cutting.

**KILLARNEY, DOUBLE
WHITE**

Waban Rose Conservatories, 1909

HT. Pure white sport of original Killarney, and identical in shape of bud, petalage, and blooming qualities.

MME. BUTTERFLY

E. G. Hill Co., 1918

HT. Fine, light pink buds and exquisitely shaped flowers, tinted with gold near base of petals; richly perfumed.

LADY ALICE STANLEY

S. McGredy & Son, 1909

HT. Massive buds and fully double blooms of pale flesh-pink; outside of petals coral-rose; very sweet-scented.

MME. CAROLINE TESTOUT

Pernet-Ducher, 1890

HT. Large, globular flowers of satiny rose, shaded lighter toward outer edges of enormous petals; fragrant. Plant extra strong, healthy, very free-blooming.

LOS ANGELES

Howard & Smith, 1916

HT. Very lovely buds and exquisite flowers of salmon-pink, with yellow shading; very sweetly perfumed. Thrives best in the West. For dry climates.

MME. JULES BOUCHE

J. Croibier Sons, 1911

HT. Superb white flower, shaded light blush at center; fragrant. Plant extra strong, healthy, very free-blooming.

Standard or Well-Known Everblooming Roses, continued

All Roses listed below are 35 cts. each, \$3.50 per doz.

MRS. CHARLES BELL

Mrs. Charles Bell, 1913

HT. Lovely shell-pink buds and blooms of fine globular form, with shadings of soft salmon; sweetly perfumed. Plant is strong, bushy. Good, healthy foliage.

RED RADIANCE

Gude Bros., 1916

HT. Big, globular blooms of deep rose-red on strong canes. The plant blooms freely until frost and in every respect is fully equal to Radiance. Foliage excellent.

RADIANCE

J. Cook, 1908

HT. Brilliant rose-pink buds, opening to well-formed, shining, globular flowers with lighter tints on reverse of petals; very fragrant. Plant of splendid growth; wonder bloomer.

MRS. AARON WARD

Pernet-Ducher, 1907

HT. Dainty, coppery yellow buds, opening to rather small, ruffled flowers of fawn-yellow and cream, borne on dwarf, bushy plants with dark green, holly-like foliage. An excellent bedding and buttonhole variety.

OPHELIA

W. Paul & Son, 1912

HT. A creamy white and pale pink bloom with a glint of golden yellow in folds of petals; very fragrant. Plant strong; spare habit; blooms liberally. One of the first florist Roses to have a perfectly formed bud.

**SOUVENIR DE CLAUDIUS
PERNET**

Pernet-Ducher, 1920

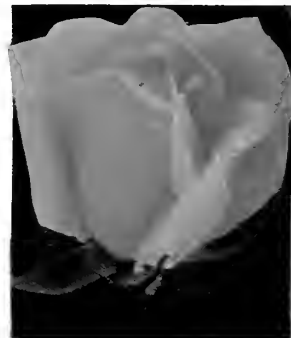

HT. Fadeless yellow, paling somewhat toward the edges; most beautiful when half open. Parent of most two-toned Roses.

SENSATION

J. H. Hill Co., 1922

HT. Enormous, double, scarlet-crimson blooms of fine, deep form; sweetly scented. Plant strong and very active. 45 large petals.

SUNBURST

Pernet-Ducher, 1912

HT. Fine, well-shaped yellow flowers, suffused with orange at center. A well-known, fragrant garden Rose. Has proved its value in all southern gardens.

SPECIAL OFFER F. To the first twenty-five individuals or groups ordering 75 to 99 Dixie Roses, in one shipment at the 50-or-more rate quoted on page 15, we shall send PREPAID, one copy of the 220-page book, *CLIMBING ROSES*, written by G. A. Stevens, Secretary of the American Rose Society. This \$2.00 book describes nearly 900 varieties of climbing Roses; is bound in red cloth; has 32 full-page color illustrations, 31 half-tones and numerous line drawings.

Standard or Well-Known Everblooming Roses, continued

These two Roses are 35 cts. each, \$3.50 per doz.

Souvenir de Georges Pernet

SOUVENIR DE GEORGES PERNET

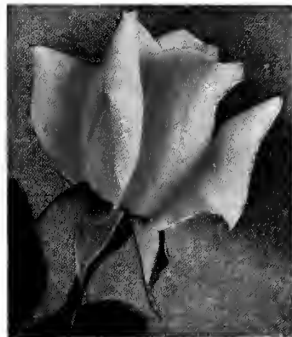

Pernet-Ducher, 1921

HT. Gigantic flowers of glowing orange-pink, tinged with yellow. Buds almost scarlet. A dwarf, stocky plant which holds its huge blooms erect, making a fine bedding or massing variety.

WILLOWMERE

Pernet-Ducher, 1913

HT. Superb buds and blooms of richest pink, shining with yellow glow from heart of the flower. Strong grower; persistent bloomer. Its beauty is worth care. 54 petals.

Willowmere

Hardy Climbers

These Climbers withstand winter temperatures in most states, but have only one blooming period.

MME. GREGOIRE STAECHELIN

P. Dot, 1927

CLHP. (New.) Buds long-pointed; very large flowers of delicate pink with curled petals stained crimson outside. A Rose that everybody admires for its great size and exquisite delicacy of color. 50 cts. each, \$5.00 per doz.

PAUL'S SCARLET CLIMBER

W. Paul & Son, 1916

HW. Bright scarlet blooms of excellent shape and moderate size, in small trusses. Foliage good. Moderate growth; blooms liberal in early season. 35 cts. each, \$3.50 per doz.

CHAPLIN'S PINK CLIMBER

Chaplin Bros., 1928

HW. Broad trusses of wide, flat flowers in brilliant pure pink. Vigorous; very free-flowering, covering itself with sheets of bloom. 50 cts. each, \$5.00 per doz.

CLIMBING AMERICAN BEAUTY

Hoopes, Bro. & Thomas Co., 1909

HW. Light crimson flowers, most beautifully shaped. Early bloomer. 35 cts. each, \$3.50 per doz.

DR. W. VAN FLEET

Dr. W. Van Fleet, 1910

HW. Pale pink buds and wonderful flowers in shape and size, on long stems. Produces thousands of blooms in mid-season. 35 cts. each, \$3.50 per doz.

JACOTTE

Barbier & Co., 1929

HW. Clusters of large, semi-double, orange-yellow flowers 3 inches across, tinted copper-red. Strong, profuse bloomer. 50 cts. each, \$5.00 per doz.

MARY WALLACE

Dr. W. Van Fleet, 1910

HW. Large, semi-double, warm rose-pink flowers. Vigorous, glossy foliage. 50 cts. each, \$5.00 per doz.

PRIMROSE

Barbier & Co., 1920

HW. Large, double flowers of soft primrose-yellow, in clusters on vigorous plants. 50 cts. each, \$5.00 per doz.

MERMAID

W. Paul, 1918

H.Brac. Huge, single, pale yellow flowers all season. 60 cts. each, \$6.00 per doz.

SILVER MOON

Dr. W. Van Fleet, 1924

HW. Long, creamy buds; immense, nearly single, saucer-shaped, creamy white flowers with golden anthers. 35 cts. each, \$3.50 per doz.

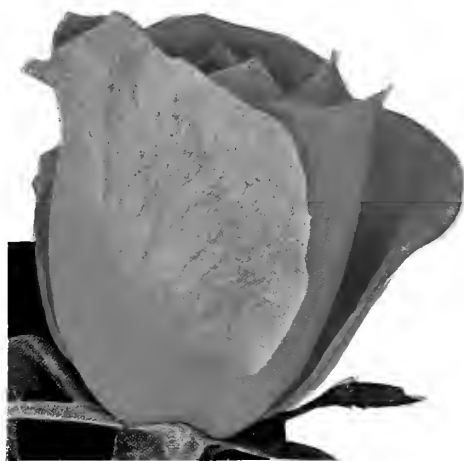

HUGONIS (Shrub Rose). A handsome big shrub with long, arching canes growing 6 to 7 feet high and as much through. In early spring the plant is covered with myriads of fairly large, bright yellow, single flowers of great charm. Throughout the rest of the season, its small acacia-like foliage and bright crimson fruits make it an interesting and attractive specimen bush. 50 cts. each, \$5.00 per doz.

Everblooming Climbing Roses

COUNTESS MARY (New)

Dixie Rose Nursery, 1933

CL.HT. Climbing sport of the popular Rose, Mary, Countess of Ilchester. Large, double, fragrant, full-cupped blooms of deep pink, in clusters. Strong, healthy growth; long, rigid canes. Our choice of a pink climber. 60 cts. each, \$6.00 per doz.

Beautiful
Roses

CLIMBING PINK PEARL (New)

Dixie Rose Nursery, 1933

CL.HT. Climbing sport of the well-known bush Rose, Pink Pearl. Strong, stocky, healthy grower. Large buds; double, fragrant blooms of deep rose-pink. Free bloomer. Similar to Columbia, its ancestor, in growth and bloom, but has more sturdy growth and better foliage. 60 cts. each, \$6.00 per doz.

CLIMBING TALISMAN

Dixie Rose Nursery, 1930

CL.HT. Sport of Talisman described on page 8. We originated and tested this climber and recommend it for the South. The most wonderful new climber in existence. 55 cts. each.

CLIMBING HOOSIER BEAUTY

W. R. Gray, 1925

CL.HT. This is a climbing sport of the famous red Hybrid Tea, Hoosier Beauty, and resembles it in flower and fragrance. 50 cts. each, \$5.00 per doz.

MARECHAL NIEL

Pradel, 1864

Nois. The most glorious yellow climbing Rose for southern gardens. Deliciously fragrant, golden yellow flowers borne on drooping stems on a vigorous, climbing plant. Very tender to frost. 50 cts. each, \$5.00 per doz.

CLIMBING METEOR

Dingee & Conard, 1901

CL.HT. One of the best old favorite dark red Roses. Blooms all season when established. 35 cts. each, \$3.50 per doz.

CLIMBING RADIANCE

W. D. Griffing, 1926

CL.HT. Climbing form of the well-known pink Radiance described and illustrated on page 18. 50 cts. each, \$5.00 per doz.

CLIMBING PRESIDENT HOOVER

Dixie Rose Nursery, 1931

CL.HT. Sport of President Herbert Hoover described on page 4. The plants we sell were originated by us and are adapted to the South. 65 cts. each.

CLIMBING KAISERIN AUGUSTE VIKTORIA

(Mrs. Robert Peary)

A. Dickson, 1897

CL.HT. Pure white, with lemon center. Vigorous climbing sport of Kaiserin Auguste Viktoria described on page 17. 35 cts. each, \$3.50 per doz.

SCORCHER

A. Clark, 1922

CL.HT. An astonishing new climber from Australia, with huge, semi-double flowers whose ruffled petals are blazing rose-red, entirely different in effect from any other climber of its class. One of the most spectacular varieties. Several blooming periods. 50 cts. each, \$5.00 per doz.

CLIMBING ROSE MARIE

Pacific Rose Co., 1927

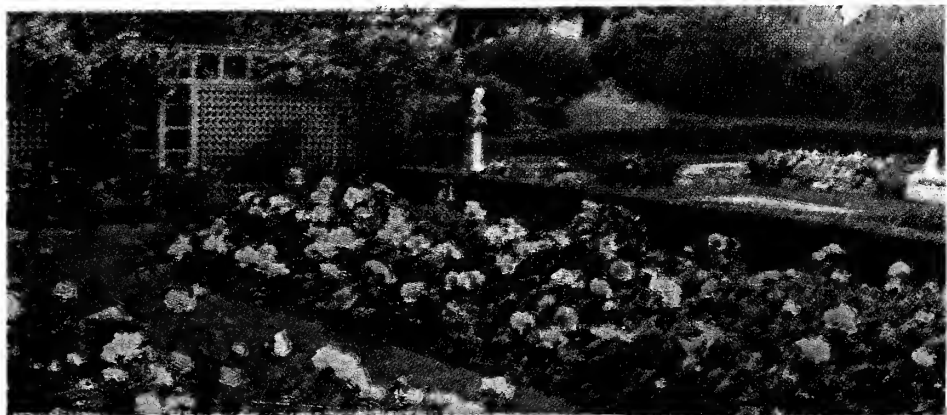

CL.HT. Sport of Rose Marie. Fragrant, rose-pink flowers of large size, borne freely on plants of notable vigor and health. Our choice of a pink climber. 50 cts. each, \$5.00 per doz.

CLIMBING RED RADIANCE

Pacific Rose Co., 1927

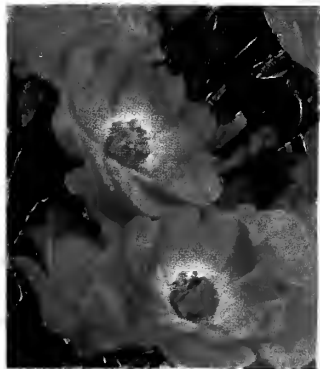

CL.HT. A strong climber, in bud and bloom like the bush Red Radiance described on page 18. 50 cts. each, \$5.00 per doz.

A ROSE-GARDEN COMPLETES THE IDEAL HOME

Every home should have at least fifty to a hundred Roses in the garden. Roses are fast becoming the most popular flower in America, as they have long been the best loved. The popularity of Roses is growing by leaps and bounds, and Garden Clubs and Rose Societies devoted to the culture of this lovely flower are being formed everywhere. Many of these Garden Clubs and Rose Societies have planted Municipal Rose-Gardens for the benefit of every citizen in the community. The American Rose Society will help in all undertakings of this kind. We shall be glad to give further information on request.

Everblooming Polyanthas or Baby Ramblers

GOLDEN SALMON

W. Cutbush & Son, 1926

Bright orange-salmon flowers in huge clusters. Growth is vigorous and bushy. First really orange Polyantha. Makes a splendid display planted in masses. 35 cts. each, \$3.50 per doz.

CECILE BRUNNER

(Sweetheart Rose)

Mme. Ducher, 1880

Small, exquisitely formed buds and flowers of light pink with yellow base, borne in graceful clusters. 50 cts. each, \$5.00 per doz.

These low-growing plants that bloom so profusely in clusters, are becoming more popular each season—for masses, edges of beds, and for low, colorful hedges.

EBLOUISSANT

E. Turbat & Co., 1918

Velvety searlet flowers in large clusters. Each bloom resembles a miniature caesus dahlia. A fine bedding variety for its unfading and always attractive color. 50 cts. each, \$5.00 per doz.

GEORGE ELGER

E. Turbat, 1912

Dainty golden buds and pale cream flowers. 35 cts. each, \$3.50 per doz.

GRUSS AN AACHEN

P. Geduldig, 1909

Very large blooms of Hybrid Tea type borne on dwarf, bushy plants. Color varies from orange-red and salmon-pink to cream and yellow. A very fine bedding variety, highly recommended by all Rose enthusiasts. 50 cts. each, \$5.00 per doz.

F. J. GROOTENDORST

J. B. de Goey, 1918

Small, fringed flowers of bright red, in large clusters throughout the season. Vigorous; 6 feet or more. Large foliage of superb quality. Makes a fine ever-blooming hedge when kept cut to 4 feet. 35 cts. each, \$3.50 per doz.

EVERBLOOMING POLYANTHAS CONTINUED ON NEXT PAGE

Everblooming Polyanthas or Baby Ramblers

GLORIA MUNDI

G. de Ruiter, 1929

Huge clusters of small, orange-scarlet flowers of a deeper tone than Golden Salmon. A very startling and unexpected color in the Rose-garden. 50 cts. each, \$5.00 per doz.

KATHARINA ZEIMET

P. Lambert, 1901

Small, very double, pure white flowers in large clusters; fragrant. Vigorous, faithfully blooming plants. One of the best white Ramblers. 35 cts. each, \$3.50 per doz.

ELLEN POULSEN

Poulsen, 1912

Large, fairly full flowers of bright rose-pink, darker toward the edges, borne profusely in large clusters; fragrant. Plant 15 to 18 inches high. One of the best Baby Ramblers. 35 cts. each, \$3.50 per doz.

IDEAL

J. Spek, 1921

Dense, compact bunches of small, dark scarlet blooms, shaded with black, borne in tremendous profusion. Plant vigorous, long-branching, continually in bloom. A bed or border makes a splendid mass of velvety color all season. 35 cts. each, \$3.50 per doz.

MISS EDITH CAVELL

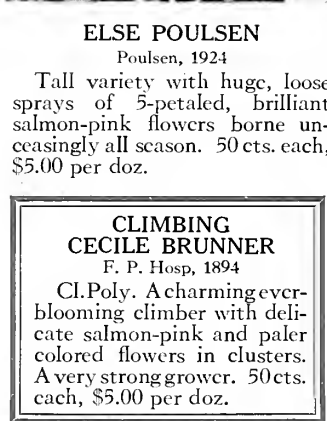

Meiderwyk, 1917

Small, semi-double, brilliant scarlet-red flowers, produced in big, cone-shaped clusters. Sturdy, well-branched plants. One of the best. 35 cts. each, \$3.50 per doz.

PINK GROOTENDORST

F. J. Grootendorst & Son, 1923

Clusters of small, fringed, clear shell-pink blooms. Vigorous, bushy; very hardy; constantly in flower. Excellent for masses or borders 4 to 5 feet high when properly pruned. 35 cts. each, \$3.50 per doz.

ELSE POULSEN

Poulsen, 1924

Tall variety with huge, loose sprays of 5-petaled, brilliant salmon-pink flowers borne unceasingly all season. 50 cts. each, \$5.00 per doz.

LAFAYETTE

Nonin, 1924

A compact, bushy plant bearing huge sprays of semi-double, brilliant light crimson flowers about 2 inches across. A very showy bedding variety which is highly esteemed for hedging and massing. 50 cts. each, \$5.00 per doz.

TRIOMPHE ORLEANAIS

Peauger, 1912

One of the finest cluster-flowering Polyanthas, with rich, semi-double, slightly fragrant flowers of brilliant cherry-red. Very vigorous. Excellent for low hedges or huge beds of massed plants, and continues in bloom for many weeks. 35 cts. each, \$3.50 per doz.

CLIMBING CECILE BRUNNER

F. P. Hosp, 1894

Cl. Poly. A charming ever-blooming climber with delicate salmon-pink and paler colored flowers in clusters. A very strong grower. 50 cts. each, \$5.00 per doz.

KIRSTEN POULSEN

Poulsen, 1924

A big, bushy plant bearing huge sprays of single crimson-scarlet flowers nearly 2 inches across. An extraordinarily fine garden Rose for low hedges or massing. A perfect companion for Else Poulsen. 50 cts. each, \$5.00 per doz.

Polyanthas are Low-Growing and Listed as No. 3's, but are NOT WEAK.

FINANCIAL RESPONSIBILITY of Dixie Rose Nursery, \$250,000. The owners of Dixie Rose Nursery are A. F. Watkins, Production Manager; W. V. Henson, Vice-President and Manager of Texas Pecan Nursery, an experienced nurseryman; and R. W. Fair, President of Texas Pecan Nursery.
